

Every year

The Banker reads this out

- 1 Place.** Take turns, one pawn at a time, until everyone's three pawns are on the board. A full place is closed.
- 2 Call the places 1 to 11.** Whoever has a pawn there does it. Turned down for a job? Take a free skill point.
- 3 Pay day.** Everyone with a job is paid, then takes one year. Check for promotions and say them out loud.
- 4 Town News.** Flip one card. Read out whose job or pay it changes. Pass the first player to the left.

Pay = salary + Rs 50 for each skill point above what the job needs (most Rs 150) + or - Rs 50 for each market step. Qualified = 3 skill points and 3 years. Senior = 5 and 5.

The eleven places

Called in this order every year

1 Skill Centre

2 Graduation

3 Job Search

4 Job Match

5 Competition

6 Employer Zone

7 Experience

8 Productivity

9 Risk Zone

10 Mentor

11 Rest

- 1 Competition:** compare the skill the job needs, then years, then education, then who has less money. Stop at the first difference.
- 2 Employer Zone:** you are HR. Hire another player who qualifies. You take Rs 100.
- 3 Mentor:** pay Rs 250 for one extra year. **Risk Zone:** draw an Oops card, then take Rs 200.

Winner after six years: highest career level, then most money, then most years.
